In the World of Words, the Imagination is
one of the forces of Nature.

-Wallace Stevens

In today's world, we encounter a variety of challenges but one that surrounds us is challenge of living in a fast-paced, virtual world. Take a breath and look at the world around you. The beauty and the promise. Let your imagination flow free and find the words that fill your soul. It is the strength of the ages and the hope of our future. Through imagination comes hope and through hope we reach the future. Every part of the world is encountering its own problems but together we can find solutions.

Imagine, Plan, Change. You will become a force of Nature and a Hero. The Alameda County Library would like to invite you to an event to celebrate those who have sacrificed all to bring us peace.

Come meet the Triad.
